Professional Summary

Egyptian Board–certified Consultant Plastic and Reconstructive Surgeon with a Doctorate (MD) degree, solid clinical experience, and a strong academic background.

Founder of the *www.SurgeryMastersAcademy.com* educational platform and author of the *Plasticology* textbook for plastic surgeons.

Experienced in advanced aesthetic and reconstructive procedures, with a consistent commitment to patient safety, evidence-based practice, and delivering high-quality surgical outcomes. Seeking to contribute effectively within a reputable medical institution.

Core Competencies & Scope of Practice

My surgical practice encompasses the full spectrum of plastic surgery, with expertise in the following key areas:

Reconstructive Surgery

- Advanced Flap Reconstruction: Extensive experience in both pedicled flaps and free tissue transfer (free flaps) for complex defects.
- Post-Oncological Reconstruction: Specializing in post-mastectomy breast reconstruction using implants, flaps, and combination techniques.
- Trauma Reconstruction: Management of complex facial, hand and lower limb trauma.
- Burn Management: Acute burn care, post-burn deformity correction, and advanced scar revision techniques.
- Wound Management: Treatment of chronic and complex wounds, pressure ulcers, and diabetic foot ulcers utilizing skin grafts, local flaps, and advanced dressings.

Aesthetic Surgery (Face & Body)

- Facial Rejuvenation: Surgical and Endoscopic Facelift, Neck Lift, Blepharoplasty (Eyelid Surgery), Brow Lift.
- Rhinoplasty: Advanced techniques for both cosmetic enhancement and functional correction.
- Body Contouring: High-Definition Liposuction, Abdominoplasty (Tummy Tuck), Brachioplasty (Arm Lift), Thighplasty, and post-bariatric surgery body contouring.
- Breast Surgery: Augmentation (Implants & Fat Grafting), Mastopexy (Breast Lift), Reduction, and Gynecomastia correction.
- Non-Surgical Aesthetics: Expert application of Botulinum Toxin (Botox), Dermal Fillers, and Autologous Fat Injections for facial contouring and rejuvenation.

Hand & Advanced Microsurgery

- Peripheral nerve surgery (exploration, repair, grafting, transfers)
- Tendon reconstruction and tendon transfers
- **Microsurgery including replantation and free-flap coverage**
- Management of complex hand and wrist trauma and fractures

Congenital Anomalies

- Craniofacial: Comprehensive repair of Cleft Lip and Palate.
- General Paediatric Plastic Surgery: Correction of congenital ear deformities (Prominent Ear, Microtia), Syndactyly, and Hypospadias.
